

# IMR- 2 Wired Remote

Supplement Instructions for CMR-60 extension cables.

The MRD-60 requires a pull up resistor when using the MRR7 with 60 Ft., or more, extension cable length.

A Pull up resistor Poly Planar # **CMR-P** is available for the Expansion Port Ribbon Connector

Attach the **CMR-P** to the IMR-2 interface ribbon cable. Be sure the unit is fully seated and the latches are closed.

This device is not needed on connections under 60 Ft.
