

poly-planar®

WATERPROOF MARINE AUDIO SYSTEMS

Great for Jet Skis, Golf Carts & ATVs Too!

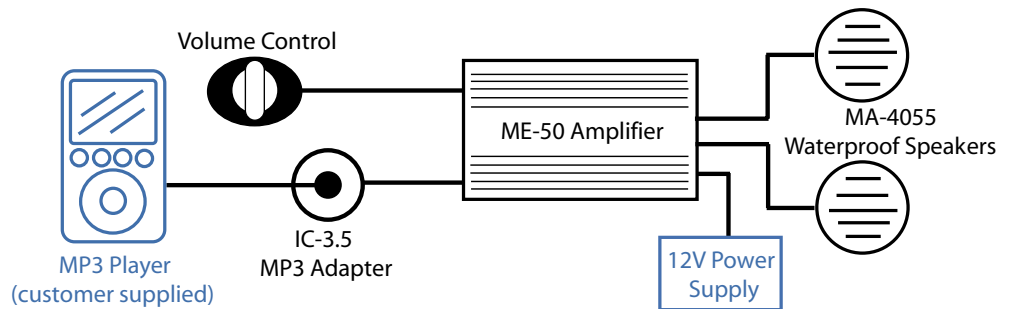

MP3 Kit for Small Watercraft

Poly-Planar's MP3 Kit provides the ability to have stereo sound on small watercraft such as Jet Skis, inflatables or tenders. The waterproof* ME-50 Amplifier can be mounted underneath a seat or inside the boat's structure. The IC-3.5 MP3 Adapter and Volume Control can be mounted on the dash or inside the stowage compartment. This provides a convenient input for portable MP3 or CD players. And with the included Poly-Planar MA-4055 5" Waterproof Speakers, you'll have crisp, clear stereo sound on the go!

Kit Includes:

- **ME-50** — 50 watt waterproof amplifier with separate panel mount waterproof volume control
- **IC3.5-PM** — Panel mount 3.5mm MP3 connector for iPod® or other MP3 players
- **MA-4055** — 5" coaxial waterproof speakers with speaker wires included

* To IP-65
